

1. My family lives in a small house. It's simple but pretty. It has a large garden. I like to work in the garden but my sister hates to work in the garden. She prefers to read. She reads in the morning, in the afternoon and at night. I give all of the vegetables to mom and dad. They like to cook in our small kitchen. I eat any vegetable but my sister eats only a few.
2. My family always eats breakfast and dinner together. We talk. We laugh. Then my sister washes the dishes. At night dad likes to listen to music. Mom works on the computer. I watch television. And my sister reads. Soon we go to bed. My parents go to bed late but my sister and I go to bed early. I'm ready to go to sleep but my sister wants to keep reading
3. My name is Bob. Each day I drive my kids to school. My daughter goes to a school that's far from our house. It takes 30 minutes to get there. Then I drive my son to his school. It's close to my job. My daughter is in the sixth grade and my son is in the second. They are both good students. My daughter usually sings her favorite songs while I drive. My son usually sleeps.
4. Most individuals don't think about numbers, or numerical representations of quantity, but they play a major part in everyday life. To be sure, numbers determine the time individuals will wake up in the morning, how much money employees earn per hour, what day of the year it is, and much, much more.
5. I live in an apartment. In my city, there is a post office where people mail letters. On Monday, I go to work. I work at the post office. Everyone shops for food at the grocery store. They also eat at the restaurant. The restaurant serves pizza and ice cream.
6. My friends and I go to the park. We like to play soccer at the park. On Fridays, we go to the cinema to see a movie. Children don't go to school on the weekend. Each day, people go to the hospital when they are sick. The doctors and nurses take care of them. The police keep everyone safe. I am happy to live in my city.
7. George is at the pet store, looking at what kind of pet he might want to get for his birthday. George asked if he could have a horse, but his parents said no because horses are too big. He sees dogs and cats. Baby dogs are called puppies. Baby cats are called kittens. George likes them because they are easy

to take care of and can play a lot, but they will get bigger. George wants a small pet.

8. George sees the animals in tanks. The tanks full of water have fish and turtles in them. He thinks about a goldfish but decides he likes the turtles more. There are also tanks with rocks and sand that have snakes, spiders, and scorpions, but George is afraid of them. George likes the turtles best, but they won't fit in the little fishbowls. Turtles need bigger tanks, so they can swim sometimes and hide sometimes.
9. Monday is viewed by many to be the "worst" day of the week, as it marks the return to work following the weekend, when most full-time employees are given two days off. Most students attend school in the morning and return home in the afternoon (usually from about eight until three or seven until two), and most workers go to work in the morning and return home in the evening (usually from nine to five or eight to four).
10. Tuesday is the second day of the week, and is in many ways similar to Monday. Not a whole lot of changes, schedule-wise, between Tuesday and Monday; most individuals go to school or work and return home to watch television, play video games, make plans with friends, spend time with family, read, or engage in a similar leisure-related activity.
11. Wednesday is the third day of the week, and serves as the "middle" of the work week; some individuals refer to Wednesday as "hump day," as once its workday is complete, employees will have passed the work-week "hump," and will be on the downturn, as only two days on the job will remain in the week.
12. Thursday is the fourth day of the week, and is viewed favorably by many, as it's rather close to the end of the work week. Friday is the fifth day of the week, and marks the end of the workweek and school-week for the vast majority of employees and students. By Friday afternoon/evening, most students/workers cannot wait to leave and go home, as they won't have to report back to school/work until Monday.
13. Saturday is perhaps the most highly regarded day of the week. Because Sunday follows it (and there is presumably no work or school to attend, for most individuals), everyone is free to stay out (or awake) until late at night, having fun with plans or other leisure-related activities. To be sure, Saturday is generally thought of as a day to partake in hobbies that couldn't otherwise be enjoyed during the regular week.

14. Lucas goes to school every day of the week. He has many subjects to go to each school day: English, art, science, mathematics, gym, and history. His mother packs a big backpack full of books and lunch for Lucas. His first class is English, and he likes that teacher very much. His English teacher says that he is a good pupil, which Lucas knows means that she thinks he is a good student.
15. Lucas gets his break for lunch. He sits with Kyle while he eats. The principal, or the headmaster as some call him, likes to walk around and talk to students during lunch to check that they are all behaving. The next class is mathematics, which most of the students just call math. Kyle has trouble getting a good grade in mathematics, but the teacher is very nice and helpful. His fourth class is gym. It is just exercising.
16. I just returned from the greatest summer vacation! It was so fantastic, I never wanted it to end. I spent eight days in Paris, France. My best friends, Henry and Steve, went with me. We had a beautiful hotel room in the Latin Quarter, and it wasn't even expensive. We had a balcony with a wonderful view. We visited many famous tourist places. My favorite was the Louvre, a well-known museum.
