7) The beach is beautiful. The sand is yellow and soft. The sea is blue and there are small waves. Many people are swimming and sunbathing. There are some colourful beach umbrellas. I like to walk along the beach and collect shells.

8) The countryside is green and quiet. There are fields with cows and sheep. There are also some small farms and houses. The sky is blue and there are white clouds. I like to walk in the countryside and see the animals.

14) Rome is a very old city. It was the capital of a big empire. The Colosseum is a famous ancient building. Many gladiators fought there. The Roman Forum was the center of Roman life. You can still see many ruins today.

17) Yesterday, I went to the park with my sister. The weather was sunny and warm. We played on the swings and the slides. We saw some ducks in the pond. We had a picnic with sandwiches and fruit. It was a lovely day.

20) This weekend, I have many things to do. On Saturday, I will visit my grandparents. They live in the countryside, and I love going there. We will have lunch together and talk. On Sunday, I am going to the cinema with my friends. We will watch a new action movie. After the movie, we plan to go to a café and drink coffee. I'm looking forward to the weekend!

22) The desert is a very different landscape. It is hot, dry, and there is a lot of sand. During the day, the sun is very strong, and at night, it gets cold. There are few plants and animals in the desert, but you can find cactus and small lizards. I think the desert is beautiful in its own way, with its golden sand dunes and clear blue sky.

35) My name is Sarah, and I am 25 years old. I live in a small town near the mountains. Every morning, I wake up at 7 o'clock. I eat breakfast with my family. I like toast and orange juice. After breakfast, I go to work. I am a teacher, and I teach English to children.

In the afternoon, I go for a walk in the park or read a book. My favorite books are about animals. In the evening, I cook dinner. Sometimes I watch TV or talk with my friends on the phone.

37) Public transport is useful and helps many people. It includes buses, trains, and trams. In big cities, there are also metros or subways.

Using public transport is good for the environment because it reduces traffic and pollution. Tickets are usually cheap, and you can buy them at a station or on the bus. Some people use apps to check the schedule and plan their trips.

47) "In many jobs, there are things that we can't tell anyone. These are called office secrets. If you work in an office, you might know things about your company that are not for everyone to know. It's important to keep these secrets because they can help the company. If everyone knew the secrets, it could be bad for the company."
